THE LOCATION

Lefay Resort & SPA Dolomiti stands in the ski area of Madonna di Campiglio and is located in Pinzolo, the largest town in the Rendena valley. The Resort is set in the splendid scenery of the Dolomites, declared by UNESCO a "World Heritage Site". The entire mountain area is protected by natural parks established to conserve the extraordinary unspoiled beauty of the area.

WINTER

Thanks to over 150 km of slopes, it is possible to ski from Pinzolo to Madonna di Campiglio with a single pass valid for the entire ski area. The region also includes four snowboard parks and is known for hosting major sports competitions, including the Alpine Ski World Cup.

SUMMER

From the steepest paths to meandering walks among the valleys, rivers and crystalline lakes, in the summer the green mountains of the Dolomites provide the ideal setting for hikers of every level. Not far from the Resort, golf players can choose between two nine-hole courses and adventure enthusiasts can enjoy unforgettable experiences, which include horse riding and mountain biking.

SUSTAINABILITY

Personal wellness should never overlook environmental wellness. Set in the woods and in perfect harmony with its surrounding landscape, Lefay Resort & SPA Dolomiti is consistent with the Brand's philosophy of reinterpreting the traditional architecture of a place and enhancing natural materials from the local area, such as stone and wood. Being certified by ClimaHotel, it will be committed to the neutralisation of its energy consumption and to the use of renewable energy sources.

LEFAY SPA DOLOMITI

Covering an area of 5,000 sqm (53,820 sqft), Lefay SPA Dolomiti is one of the largest spas in the Alps. An exclusive temple of wellbeing where the body and mind can regenerate while enjoying the most authentic spa experiences. Here wellness is everywhere: in the dialogue with nature, in the light that pervades every space and in the enchanting surrounding atmosphere.

WORLD OF WATER AND FIRE

A universe of elements with different wide spaces: the indoor sports pool covered in tonalite stands out for the brilliant reflections created by the colours of light granite, while the indoor and outdoor pool blends in with the landscape between sky and earth. The aquatic area is the epicentre of the Lefay SPA Method energetic path and is completed by a large whirlpool that recalls ancient spas. Here, among the shapes and stages of water, fire and ice, the saunas lead to a journey in yourself. The mineral dimension can be found in the salt-water lake and the salt grotto.

THE ENERGY- THERAPEUTIC PATH

The extensive sauna area has been designed according to the Lefay SPA Method principles, the innovative method developed by our Scientific Committee that combines Classical Chinese Medicine with Western scientific research. The circuits, with different levels of temperature and humidity, dedicated phyto- and aromatherapies, are created according to the energetic condition of the Guest. From the Centre, the place of connection, all other stations can be reached: The Green Dragon, The Red Phoenix, The White Tiger and The Black Tortoise are the stages within a world of similarities and symbolism to rediscover the energetic balance.
