ENERGY AESTHETIC MEDICINE: BEAUTY ACCORDING TO CHINESE MEDICINE.

Chinese Aesthetic Medicine (Mei Rong) has its roots in 475–221 B.C., at the time of the so-called Warring States, which fought for supremacy of Ancient China. It was a time in history when aesthetic acupuncture was reserved solely for imperial concubines and was considered valuable for preserving good health and slowing the ageing process. The Huangdi Neijing, the most important Classical Chinese Medicine text dating back to the 1st–2nd century B.C., documents the effects produced by ageing on the skin and body. The work suggests acupuncture, moxibustion, massages and Qi gong as the principal techniques for slowing the signs of time.

FACE

ACULIFTING AND FACE MASSAGE WITH GUA SHA Farfalla di Seta

East and West meet in this effective non-invasive and non-toxic lifting treatment. The treatment starts with acupuncture that aims to slow the formation of wrinkles and stimulate the facial energy points to make the skin supple, glowing and as soft as silk. The *Gua Sha* face massage follows, which eliminates lymph fluid accumulations and reshapes the neck and mimetic facial muscles.

The results are visible even after the first treatment.

BODY

ANTICELLULITE

(Acupuncture with electrolipolysis and energy body massage)
Il Fluire del Ruscello

An innovative holistic treatment aimed at eliminating imperfections in the areas of the thighs and gluteal muscles. This programme involves three stages:

- Medical Diagnosis and personalised Phytotherapy carried out in accordance with the principles of Classical Chinese Medicine to identify the causes of the imperfection;
- Acupuncture to stimulate the points connected to the energetically imbalanced organs. The needles are applied to areas with greatest fluid retention or cellulite and arranged along acupuncture channels. Micro-electrodes are then used, which are set according to particular electrical frequencies and intensities;
- Massage with draining and anti-cellulite action performed with a Gua Sha, a typical Chinese technique that stimulates the acupuncture channels and points where an accumulation occurs, following specific manipulative techniques.

LIGHTENING TREATMENT

For mature skin with cutaneous dyschromia

Skin discolouring is an alteration associated with an accumulation of melanin pigment that gives risk to unaesthetic spots on the face and the zones of the skin that are the most exposed. This illuminating treatment improves the skin, giving it a radiant complexion and a smoother texture thanks to salicylic, lactic and citric acids. Powerful antioxidants and coenzymes inhibit melanin production, stimulating healthy cell reproduction.

Ideal for dry and mature skin where old age together with factors such as environmental circumstances, metabolism and lifestyle have altered natural hydration levels. Thanks to the use of enzymes that repair DNA and natural melanin, the skin becomes visibly more firm, strengthened and protected.

IMPURE SKIN TREATMENT

For oily skin or with acne

Oily skin is thicker than normal skin; it appears oily, with dilated pores, comedones and blackheads, which may give rise to chronic inflammation known as acne. By using products containing AHAs and salicylic acid, the excessive production of sebum is minimised, helping to shrink pores. Immediately the skin appears cleaner, healthier and without excess sebum. Furthermore the use of antioxidants, natural melanin, zinc oxide and titanium dioxide reduces acne scars.
