SAUNAS

Aromatic Sauna

Temp. 40-42° / Humidity 60-70%

The aromas in this sauna make a valuable contribution towards eliminating stress and easing respiration. It is the initial tepid room where the body is prepared for the perspiration that takes place inside the Caligo Sauna.

Caligo Sauna

Temp. 42-45° / Humidity 90-98%

The high percentage of humidity in this sauna

forms a cloud of stratified temperatures, which is excellent for relaxing the muscles of the body and reducing tension. The detoxifying and skin-purifying action of the steam bath makes the skin soft and silky.

Olive Tree Sauna

Temp. 50-60° / Humidity 40%

Panelled in wood from this valuable tree, this sauna is ideal for detoxifying the skin, which becomes glowing and clear. The temperature of this bio-sauna also promotes relaxation and night time sleep and prepares the body for the high temperature and low humidity of the Water and Fire sauna.

Water and Fire Sauna

Temp. 75-90° / Humidity 10%

The high temperature and low humidity of this Finnish sauna allows you to achieve considerable organic and metabolic stimulation, thereby promoting cell turnover, toxin elimination and stimulation of the neuro-vegetative system.

CHARME D'ORIENT AREA

This area evokes the magic of an opulent oriental ambience. A reminiscent journey in which body, mind and spirit get lost in the inebriating fragrances of three areas:

Hamman

Temp. 45-48° / Humidity 80%

Inspired by the beauty of the enchanting oriental palaces, the Hamman distances us from daily life where everything is rational, stressful and rushed, taking us back to the natural balance between movement and rest, exercise and relaxation, reality and fantasy.

Lady Sauna

Temp. 38-42° / Humidity 50%

This is for ladies only and has a delicate perfume which envelops the body in an atmosphere that evokes summer gardens by the lake. It stimulates the circulation and purifies the skin, melting away tensions and relaxing the body.

Sunset Relax

A suggestive relaxation area, offering a wide selection of fine teas.

OTHER

The Stream: this cool water stream is excellent for people with a sensation of heavy legs and problems of circulation in the lower limbs.

Crash- Ice Fountain: Rubbing ice over the body is ideal for stimulating blood flow and for a pleasant sensation of freshness after a sauna or hot bath.

Ice Pool

Temp. 12-17°

The cold water closes the skin pores, helping cutaneous vascularization. The nervous system is stimulated by the cold water which produces positive impulses for the heartbeat breathing activity and blood circulation.

NEW

MAN AND NATURE IN SILENCE AND AMONG THE STARS: TRILOGY IN THE AIR.

The contact with nature is the first step to purify both mind and body. At Lefay Resort & SPA Lago di Garda, the temple of holistic wellness stretches into the wonderful 11-hectare park that surrounds the Resort. Within this setting, where man and nature are close to each other, three different trails have been created: the Energy and Therapeutic Garden, whose energetic stations are based on the principles of Classical Chinese Medicine; the Running Circuit and the Fitness Path for outdoor activities. Here, the physical-energetic rebalancing classes, which are an integral part of the Lefay SPA philosophy, take place in front of a unique view.

ENERGY AND THERAPEUTIC GARDEN The Symbol of Life

Consistently with the principles of Classical Chinese Medicine and the idea that there is no separation between people and their natural environment, the energy concept and the theory of the five movements have been explored both in the indoor and outdoor at Lefay SPA. Great attention has been paid to the Energy and Therapeutic Garden's project, which is the result of the collaboration between the Lefay SPA Method Scientific Committee and the designers. The "Symbol of Life" Energy and Therapeutic Garden traces the stages of life and is composed by five different stations full of symbolisms. These circuits, with various shapes, colours, essences and

specific postures and meditation activities, have a significant effect on the body and the function of indicating to the small elements that compose us, the need to enter in the nature and, perceiving it as an ally, to exercise and unwind within it.

THE GREEN DRAGON

Located in the East, it represents the renewal of nature, the spring, the dawn of life. It is in the middle of a forest and is characterised by the element wood.

ACTIVITIES

Stretching of the Meridians: postures and exercises that relax muscles, tendons and open up joints eliminating energy and mental blockages.

Perception walking: during a silent walk with closed eyes through the Park, a deep relationship with the surrounding environment develops through the simple act of walking; this allows us to rediscover "in a new and conscious way" senses that in everyday life we use only unconsciously.

THE RED PHOENIX

It is positioned in the South and represents the culmination of energy, the summer, noon. The Red Phoenix is characterised by the red colour.

ACTIVITIES

Tai Qi: slow movements and a perfectly relaxed body are the ideal state for exercising both mind and body; a refined "soft" martial art of self-defence and a form of dynamic meditation with the aim of developing our own "inner" strength.

Mindfulness Meditation: Focus on the "here and now". Maintain serenity and feel the necessary strength to eliminate negative thoughts, making room for positive and enabling reflections. The goal is to achieve a state of deep well-being, feeling that everything is wonderful and perfect.

It is suggested to perform the practice at sunrise; the ideal moment for mindfulness meditation.

金

THE WHITE TIGER

This is positioned in the West and it is the mirror of inner place. It represents the start of gathering and meditation, Autumn and sunset. The colour white and metal benches dominate in this area.

ACTIVITIES

Yoga: an ancient wisdom system which aims to reunite soul and spirit, eliminate influences and provide greater awareness of our vital and physiological processes and, more generally, of our whole body.

Stress-relieving breathing: controlling and being aware of our breathing facilitates the elimination of toxins, improves blood and lymphatic circulation, frees us from anxiety and fear, strengthens the immune system, improves digestion and purifies the body.

It is suggested to perform the practice at Sunset; the ideal moment for this type of meditation.

水

THE BLACK TORTOISE

The Black Tortoise is found in a valley facing North. It is the station of the relationship with ourselves and is associated to Winter and the end of the day. It features a rocky cave, a small river and benches of bare rock.

ACTIVITIES

Qi Gong: Chinese practice that in its simplicity teaches us to go deep within ourselves by momentarily closing the doors to the outside world; this allows us to learn, through body, mind and breath, all about us.

Conscious full-body walking: reprogramming the entire body through the experience of walking. The aim of the session is the perception, understanding and experiencing of the lesser known but fundamental body principles that are triggered when we walk in the nature. A deep-rooted, effortless form flows and uncovers a new way of walking. Every single step is not only a discovery of the outside world but also of the inside.

土

THE CENTRE

This station is located in the centre of the energy healing garden on a hill covered in yellow flowers. It is the energy connection of all the stations and offers unique breathtaking views.

ACTIVITIES

Qi Gong's six healing sounds: Liu Zi Jue or "The Six Healing Sounds", is an ancient form of Qi Gong, composed of slow, wide and harmonious exercises performed together with vocalisations of six specific sounds during exhalation. Posture and movements "resonate" with the pronunciation of the six syllables, increasing their effectiveness. It energises and provides calmness, helping to cure some chronic diseases.

Zazen Meditation: to awaken to True Life and help us overcome attachments. Zazen, "simply sitting" means sitting without looking to achieve any goals or expectations, without wanting anything and without thinking. The difficulty lies precisely in this word: simply. Zazen means abandoning knowledge to enter into non-knowledge, embracing all things and not just one. The revelation of what we really are, the rediscovery of what we have always been.

LEFAY SPA METHOD HEALTH PROGRAMMES

The Lefay SPA Scientific Committee created a method that combines the principles of Classical Chinese Medicine with Western scientific research, which has the “global wellbeing” of the individual and their health as its goal.

Classical Chinese Medicine is one of the oldest diagnostic and therapeutic sciences in the world. It considers man as an infrangible complex of matter, energy and spirit in continuous evolution. Since its very origins, it has been concerned with the phenomenon known as stress, which is one of the main causes of complaints and ill health.

From the Western world, Lefay SPA Method utilizes the results of scientific research about the ageing process, stress, posture, nutrition as well as the emotional status. This tried and tested union is the basis of the Lefay SPA Method and its innovative treatments.

01.

HEALTH PROGRAMMES I FLUSSI DELL'ENERGIA

Lefay SPA offers its Guests the innovative programmes

I Flussi dell'Energia, personalised according to individual needs to achieve a complete sense of physical wellbeing and pursue different objectives: weight loss, stress relieving, getting back into shape and posture correction, curing insomnia, reducing the signs of aging and body detoxification.

INITIAL ENERGY INTERVIEW

This interview is the first step of every programme. A specific analysis is carried out in order to identify the energy status and choose the most suitable personalized programme.

BALANCING TREATMENTS

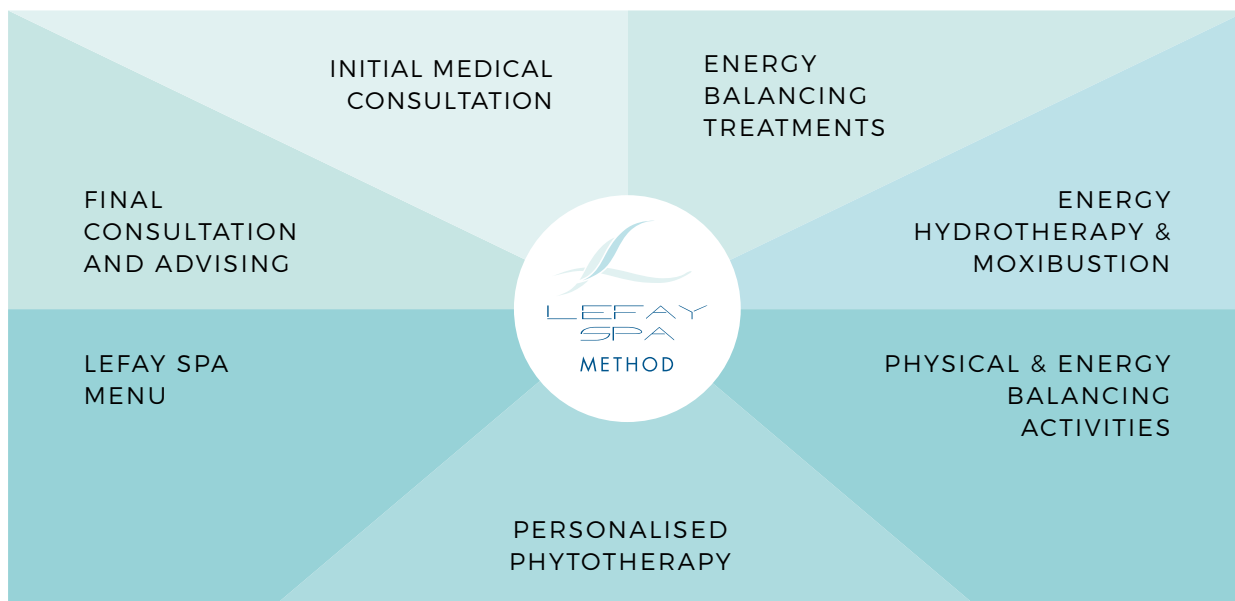

The energy treatments (tuina massages, energy foot reflexology treatments, acupuncture treatments, etc.) aim at reactivating the energy channels and are carried out according to the individual energy levels. They have been developed by associating the principles of Classical Chinese Medicine with Western techniques, thanks to a combination of traditional massages techniques with the stimulation of "points and meridians" which activate the "energy" systems, ensuring that the treatment is deep and long-lasting. This method enhances the effects of a traditional massage, because the body receives an "energy message" which will be remembered and elaborated with time.

MOXIBUSTION

Moxibustion is a therapeutic practice of Chinese Medicine which consists in heating the overlying skin areas of acupuncture points, strengthening the effects of specific treatments or massages. Its name comes from "Moe Kusa" which in Japanese means "burning herb".

ENERGY HYDRO-AROMATHERAPY

Whirlpool treatment with the addition of essential oils indicated during the energy interview. The jets of water aimed on the meridians improve the circulation and restore energy and vitality.

PHYSICAL AND ENERGY RE-BALANCING ACTIVITIES

Physical and energy re-balancing activities such as Qi Gong and Meridian Stretching are an integral part of Lefay SPA Method programmes and are techniques that embody an ancient philosophy. Their gentle fluid movements regulate the state of energy, tone the body and relax the mind.

PERSONALISED PHYTOTHERAPY

The Lefay SPA Method uses the oldest form of phytotherapy within its programmes: the herbal tea. During the initial examination and depending on the energy constitution of Guests, a specific medicinal plant is recommended to be taken during and after the stay.

DIETARY APPROACH

Lefay SPA Menu

Diet plays a fundamental role in preventive medicine and as such is included in the Lefay SPA Method programmes. Lefay SPA Menu is a detoxifying and marginally low-calorie dietary approach whose purpose is to ensure energy supply through foods selected for their quality and treated with cooking methods that do not put excessive strain on the digestive system. This dietary approach is also aimed at changing eating habits through education on the nutritional characteristics of various foods and the psychological processes that determine attitudes towards food.

FINAL INTERVIEW

At the end of the programme each Guest receives a final checkup report containing maintenance recommendations – such as a specific diet and a personalized phytotherapy treatment – allowing Guests to also enjoy the benefits when they return home.

02.

GENERAL HEALTH PROGRAMMES

SPECIFIC HEALTH PROGRAMMES

The Scientific Committee has created six programmes aimed at solving specific problems such as: excess weight; damage due to ageing; stress relieving; physical shape; detox and insomnia.

The human body is a collection of energy flows in continuous activity, in an effort to strike a balance between the stimuli of the outer world and the inner emotional sphere. A condition of prolonged stress can undermine the harmony of these two aspects, creating a state of general malaise. *Il Recupero dell'Energia Originale* aims to reprogram the body by helping to stimulate the necessary resources for this exchange of forces, and regain a dynamic equilibrium. Its methodology is based on the integration of the most recent discoveries of neuroscience, re-integrated within the more complex vision of classical Chinese medicine. The effectiveness of the treatments is continually overseen through heart rate monitoring, according to mathematical models that interpret the variability of the autonomic nervous system as a stress state detector.

Being overweight is one of the most significant health risks and there are no “magic” solutions for weight loss. Western studies have shown that programmes based on the idea of diet as a “deprivation” or “constraint” is not only ineffective, but also detrimental to health, as some considerable weight fluctuations can be harmful to health itself. Lefay SPA philosophy underlines the importance of “consciousness” within a diet and more in general in one’s lifestyle. Therefore it aims to modify your eating habits in your regular daily life. Lefay SPA Method programme features a nutritional consultation with the prescription of a “sustainable” and personalised diet, draining and detoxifying treatments together with physical and energy rebalancing activities with the aim to restore the free flow of energy around the body, assisting you to return to your ideal body weight.

Any physical or mental activity produces waste in the body: the persistent presence of these substances is toxic. Prolonged stress, bad eating habits or frequent use of alcohol and cigarettes create an imbalance between the production of toxins and the detoxifying ability of the body. The result is an accumulation of toxins that progressively acidifies the body, ageing it prematurely. This programme is ideal for removing toxins accumulated during periods of stress and re-establishing better functioning of the organs responsible for toxin elimination, turning back the body's biological clock assisting the body to disperse toxins' accumulation.

LEFAY SPA TREATMENTS

Lefay SPA treatments have been created combining traditional massage techniques to stimulate energy points and meridians, and are tailor- made for the individual's physical and mental state, for a deep and long-lasting result. The Signature offer includes: energy massages, energy aesthetic rituals for the face and body and special treatments using perfumes and essences from the local area.

01.

FACE & BODY ENERGY BALANCING MASSAGES

The Lefay SPA massages aim to reactivate energy channels as well as rebalance the energy of body and mind, and are personalised according to the individual's psycho-physical status.

They have been developed by associating the principles of Classical Chinese Medicine with Western techniques, thanks to a combination of traditional massages techniques with the stimulation of "points and meridians" which activate the "energy" systems, ensuring that the treatment is deep and long-lasting. This method enhances the effects of a traditional massage, because the body receives an "energy message" which will be remembered and elaborated with time. All massages are carried out with natural certified products and are accompanied by aromatherapy with essential oils following the rhythm of the seasons.

BODY MASSAGES

RELAXING

Scambio nel Vento

Much of our daily tensions are embedded onto different areas of the body, especially the head, neck and shoulders. This massage uses Western techniques, including kneading and friction, on energy points in the body. Slow and medium pressure acts on the muscular tension and the stimulation of energy points allowing you to relax your entire body.

€ 115,00 (50 min.)

STRESS-RELIEVING

La Quiete

The anti-stress massage is performed with Western techniques on the energy functions. Leads to deep relaxation and helps our vital energy to repair itself from the stress to which it is subjected. Using slow movements with medium and enveloping pressure, this massage stimulates certain energy points that have the specific and intrinsic ability to ease muscle tension and, more generally, relax the spirit, mind and body. Other energy points are activated to nourish the whole organism, thereby eliminating stress. The rejuvenated body will be able to perceive lightness as the overwhelming feeling of relaxation, peace of mind and change.

€ 145,00 (65 min. + 5 of relaxation)

DETOXIFYING

La Luce oltre la Nebbia

According to Classical Chinese Medicine and Naturopathy, accumulated toxins must be removed before any treatment. This massage works on the meridians and specific points, preparing the body for the following treatments. (Not advisable for people suffering from capillary fragility).

€ 115,00 (body only, 50 min.)

€ 145,00 (face and body with cupping, 75 min.)

TENSION-RELIEVING

La Brezza accanto al Confine

Thanks to the stimulation of energy points, it has a specific effect on contracted muscles (especially in the back and legs). The dynamic and deep massage techniques, from the Western school of massage, help loosen hypertonic muscular areas.

€ 115,00 (50 min.)

ANTICELLULITE Respiro Alchemico

This massage stimulates the lymphatic circulation and promotes the elimination of excess water in particular the lower limbs, activating specific points that increase drainage.

€ 130,00 (65 min.)

REVITALISING AND ANTI AGEING Alta Marea

The purpose of this treatment is to nourish the body deep down, flooding it with a sea of vitality. The points involved in this treatment provide the organism with the energy it needs to function at its best. This massage, performed with Western techniques such as effleurage, envelopment and friction, is particularly pleasant and relaxing.

need to cease bottling up their feelings.

€ 200,00 (50 min.)

EMOTIONAL MASSAGE Il Volo dell’Angelo

The first example of a visualised treatment in which the different senses of man are stimulated – touch, smell, hearing, sight, but above all the sixth sense, known also as feeling or emotion. The latter is activated with music and a voice, which, during the entire massage, tells the story of the journey of an angel between the Heavens, the Earth and the Sea: symbols of a journey within the individual. Dextrous hands perfectly synchronised with the words take you on a journey to your inner self. This intense experience, which is suited to people with great sensitivity, helps you to listen to your inner voice.

€ 140,00 (45 min. + 10 of relaxation)

REBALANCING TUINA WITH MOXIBUSTION I Colori dell’Uomo

According to classical Chinese medicine, wellbeing corresponds to the inner balance of two fundamental forces: Yin and yang. These untranslatable terms represent two opposing forces and complements present both in nature and in man. Depending on the energy constitution at hand, these massages restore the equilibrium between yin and yang, thereby determining the well-being of the body in its entirety.

NON INVASIVE AESTHETIC MEDICINE

THE NATURAL DIRECTION OF BEAUTY

The treatments are based on an approach to rejuvenation that guarantees effective, safe and harmonious results over time using non-invasive techniques and tools designed to improve skin blemishes. The Lefay SPA innovative energy aesthetic treatments, included in this section, are based on the use of acupuncture for aesthetic purposes.

01.

ENERGY AESTHETIC MEDICINE: BEAUTY ACCORDING TO CHINESE MEDICINE.

Chinese Aesthetic Medicine (Mei Rong) has its roots in 475–221 B.C., at the time of the so-called Warring States, which fought for supremacy of Ancient China. It was a time in history when aesthetic acupuncture was reserved solely for imperial concubines and was considered valuable for preserving good health and slowing the ageing process. The Huangdi Neijing, the most important Classical Chinese Medicine text dating back to the 1st–2nd century B.C., documents the effects produced by ageing on the skin and body. The work suggests acupuncture, moxibustion, massages and Qi gong as the principal techniques for slowing the signs of time.

FACE

The results are visible even after the first treatment.

For dry and dehydrated skin

This treatment starts with a hydrating cleansing and a micro exfoliation that removes superficial impurities. Thanks to the extracts of blackberries, liquorice and bearberries with lactic acid and kojic acid, the skin is prepared for exfoliation that improves the skin's brightness, purity and texture, alleviating wrinkles. Ideal for dry and mature skin where old age together with factors such as environmental circumstances, metabolism and lifestyle have altered natural hydration levels. Thanks to the use of enzymes that repair DNA and natural melanin, the skin becomes visibly more firm, strengthened and protected.

IMPURE SKIN TREATMENT

For oily skin or with acne

Oily skin is thicker than normal skin; it appears oily, with dilated pores, comedones and blackheads, which may give rise to chronic inflammation known as acne. By using products containing AHAs and salicylic acid, the excessive production of sebum is minimised, helping to shrink pores. Immediately the skin appears cleaner, healthier and without excess sebum. Furthermore the use of antioxidants, natural melanin, zinc oxide and titanium dioxide reduces acne scars.

NATURAL MEDICINE

ENERGY MEDICAL EXAMINATION

A seventeenth-century document described this as the song of the 10 questions since the energy doctor makes enquiries regarding certain characteristics of the body that range from dreams to digestion, trying to perceive any small changes in energy in the body before these changes develop into a disease. The doctor also observes the colouration of the skin, listens to the tone of the voice, asks about favourite foods and feels the radial pulses. This sequence allows an energy diagnosis to be made, according to which specific treatments, based on the changes encountered, are applied.

ACUPUNCTURE

€ 45,00 (20 min.)

CUPPING

Therapeutic method used since ancient times. The application entails placing cups on acupuncture points, creating a suction effect to dispose of excess fluid and reactivate the energy flows throughout the body and is considered a "reflex-stimulating" therapy because it works on the so called reflex zones, improving the flow of energy and unlocking blockages. This aids respiratory and cardiovascular diseases, digestive and the osteoarticular system issues and headaches.

€ 45,00 (20 min.)

ACULIFTING

The Aculifting treatment uses ancient methods of Chinese medicine to prevent and reduce the signs of ageing. Very thin needles are inserted in acupuncture points along the face's mimetic muscles in order to stimulate collagen production and blood circulation. After just one treatment skin appears firmer and rejuvenated, lines are reduced and the pores are tightened.

According to each one's energy constitution the doctor will select a personalised dietary programme.

The ultimate objective of this therapy is good health, achieved by reducing pain, improving joint function, treating physiological dysfunctions and removing obstacles for optimal nerve transmission.

It is a type of alternative medicine that uses manipulation techniques aimed at restoring the overall balance of the body, its functions and its well-being. Osteopathy treats the individual as a whole, as a system composed of muscles, skeletal structures and internal organs connected in the nerve centres of the spine. Each constituent part of the person (psyche included) depends on the other ones and their correct functioning ensures the well-being of the entire organism.

ANTI-AGEING CHECK-UP

Anti-ageing due to Oxidative Stress

This test examines the capacity of the antioxidant activities responsible for the reactions to free radicals, assessing their different levels and the reactions from the metabolism. If free radicals are highly reactive, they can cause premature ageing of tissues, damaging the skin, veins and arteries, resulting in a predisposition to cardiovascular disease. Some polymorphisms in specific genes may alter the production and functioning of antioxidant enzymes. When the balance between pro-oxidative factors and anti-oxidant enzymes is disrupted in favour of the former, the result is a pathological condition known as 'oxidative stress'. The test is carried out by analysing a sample on a salivary spatula.
