

LEFAY SPA

Lefay SPAs are exclusive wellness temples where senses and soul are regenerated. Innovation, nature and a unique method are the principles of places where east and west blend together to recover inner harmony. Here wellness is everywhere: in the dialogue with nature, in the light that pervades every space and in the enchanting surrounding atmosphere.

LEFAY SPA LAGO DI GARDA

It extends over 4,300 sqm (46,284 sqft) and is divided into three areas: the *World of Water and Fire*, which includes all zones connected to swimming pools, saunas, grottos and small lakes; the *Man and Nature*, made up of wide outdoor spaces for movement and rebalancing activities; the *Fitness Centre*, open 24 hours a day featuring a gym equipped with the latest Technogym® Artis Line and a large studio with view. Lefay SPA Lago di Garda is the first organic and ecological SPA in Italy (fourth in the world), as certified by "Being Organic and Ecological SPA" Excellence of Ecocert. Here the innovative "I Flussi dell'Energia" Health Programs are carried out and customised according to individual needs to achieve the complete rebalancing and rejuvenation of body, soul and spirit. In April 2022, the new Adults Only SPA area has been inaugurated, a new peaceful oasis dedicated exclusively to adults, where they can revive themselves in bright spaces with unique views.

LEFAY SPA DOLOMITI

A universe of elements where ice and fire reside in the same space: covering an area of over 5,000 sqm (53,820 sqft), Lefay SPA Dolomiti is one of the largest spas in the Alps. It consists of four levels respectively featuring the indoor/outdoor pool with Family Sauna; 22 rooms for treatments; the 24h Fitness Centre equipped with the new Technogym® Artis Line and the adults' zone with saunas and the indoor pool. Highlight of the spa is the exclusive Energy-Therapeutic World, developed according to the principles of Classical Chinese Medicine and dominated by five areas: The Green Dragon, The Red

Phoenix, The White Tiger, The Black Tortoise and the Centre. They are distinguished by different levels of temperature/humidity and dedicated phytotherapy and represent the connection between our body and the elements, the seasons and the stages of our life.

LEFAY SPA TREATMENTS

Lefay SPA treatments have been created combining traditional massage techniques to stimulate energy points and meridians and are tailor-made for the individual's physical and mental state, for a deep and long-lasting result.

Face & Body Energy Balancing Massages

They aim to reactivate energy channels as well as rebalance the energy of body and mind, and are personalised according to the individual's psycho-physical status. They have been developed by associating the principles of Classical Chinese Medicine with Western techniques, thanks to a combination of traditional massages techniques with the stimulation of "points and meridians" which activate the "energy" systems. All massages are carried out with natural certified products and are accompanied by aromatherapy with essential oils following the rhythm of the seasons.

Face & Body Energy Rituals

Performed using the products of the Lefay SPA natural dermatological cosmetics line "Tra Suoni e Colori", they involve a massage that is aimed at stimulating specific points and meridians capable of treating skin blemishes.

Treatments and Rituals of the Territory

Everything we need to feel good is in the nature around us. The Treatments and Rituals of the local area combine the wisdom and purity of nature with the therapeutic properties of the precious products obtained from the local vegetation.

Non-Invasive Aesthetic Medicine

Treatments that use non-invasive techniques and tools designed to improve skin blemishes. An approach to rejuvenation that guarantees effective, safe and harmonious results over time using highly technological equipment. The Lefay SPA innovative energy aesthetic treatments, included in this section, are based on the use of acupuncture for aesthetic purposes.
